Our Future Co-op Leaders

Outstanding leaders invest in people and their co-ops by keeping an eye on the future. Developing talent within your cooperative is key to being prepared for tomorrow's challenges. The Cooperative Leadership Forum was developed to provide two intensive two-day workshops for promising people who demonstrate leadership potential or viable candidates for your board. Participants will explore all aspects unique to the cooperative business model, and the advantages offered by a variety of co-op structures. This forum is a dynamic, hands-on learning experience that provides opportunities to interact with others who have similar interests and goals.

While working together, attendees will:

- Discover how their "Personal Why" fits their "Co-op Why"
- Create their own cooperative
- Develop a business plan for their co-op
- Develop a governance structure, financials
